The Event

INNOVATION, TECHNOLOGY AND QUALITY

The entire universe of finishing and knitting machinery will be on show in Brescia from October 8 to 11 at Brescia Exhibition Centre.

The Show is dedicated to producers and suppliers of the sector.

Fimast, international fair of textile machinery and accessories, represents the meeting point for Italian and foreign professional visitors coming from all over the world who intend to be up dated about textiles innovative production.

The event, organized by Brixia Expo (Brescia Exhibition Centre), aims to give more information about the market trend.

The textile machinery industry doesn't register an important positive growth so far, the total turnover is at a lower level compared with the past.

Fimast was born from the will of some of Italian manufacturers of finishing and knitting machinery who need to match their experience and to find out new opportunities for the sector relaunch.
